

Phase II Local Logic Model

Local Contributing Factors

Intervening Variable: Enforcement (Sales, Use, Possession, Charges, Regulations)

Local Contributing Factors	Current Strategies	Strategy Addresses Population Targeted	Evidence Based	Strategy Implemented with Fidelity / Adaptations	Strategy Reaches Target Population Adequately	Gap	Capacity Needed
Ineffective administrative options, fines and penalties	Compliance Checks Collaboration with ABT	Yes	Uncertain	Uncertain	Uncertain	Lack of staffing Inconsistent enforcement entities regarding underage drinking Lack of capacity for local PDs and ABT Not a priority for cities and PDs	Increase ABT staffing Increase collaboration between ABT, law enforcement Changes in policy possible regarding underage drinking enforcement [laws and policy changes to increase vendor compliance]- Increase capacity to enforce and prosecute.
